

AN ORDINANCE TO AMEND ARTICLE V STREET AND UTILITY IMPROVEMENTS SECTION 7 STORM DRAINAGE SUBSECTION 2 OF THE SUBDIVISION CONTROL ORDINANCE IN EFFECT FOR WARRICK COUNTY, INDIANA

BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF WARRICK COUNTY, INDIANA, as follows to wit:

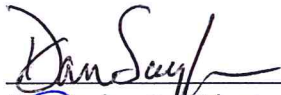

Section 1. An Ordinance to amend Article V Street and Utility Improvements Section 7 Storm Drainage Subsection 2 as follows:

- (2) Wherever curbs and gutters are provided or when the Area Plan Commission and the County Surveyor determine the natural surface drainage to be inadequate, the subdivider shall construct a storm water sewer system with catch basins appropriately spaced along the streets in the subdivision. Valley gutters extending across the street surface shall not be used.

Wherever curbs and gutters are provided within a development, storm water flow in the gutter line shall not exceed 600 lineal feet. In cases of excessive lengths of drainage, an inlet should be installed to intercept the water and direct the water through a structure. In design of the subdivision, provisions shall be made to prohibit the drainage of storm water across intersections. Positive drainage shall be achieved and no standing water shall be allowed. The minimum gutter grade shall not be less than **.65%**. Side drains from the gutter (or curb spill-outs) are prohibited.

Section 2. This Ordinance shall be in full force and effect from and after its passage by the Board of County Commissioners for Warrick County, State of Indiana.

Approved this 11 day of January, 2021.
